

Due to the increase in patients failing to show up for their scheduled appointments and the subsequent delay in healthcare services to all our other patients, DRI has been forced to levy a **No-Show Fee of \$75** to patients failing to show up for their scheduled appointments.

To avoid this fee, please make sure to cancel your appointment at least 24 hours before your scheduled time so we can reschedule you at a more convenient time and allow others to use this time for their imaging or procedures.

We at DRI strive to provide excellent and timely care for all of our patients.

Thank you for your compliance and consideration.
